ABOUT

I have been photographing commercially for some 14 years & use the latest technology to obtain data for construction.

Alongside this I taught Health & Safety for 20+ years, with a particular interest in Behavioral Safety. Now I proudly mix the two into reviewing and modifying Health & Safety systems and developing them into training courses and video.

Holding a NZ Certificate in Construction Site Safety along with a CAA approved Certificate of Competence makes compliance easier.

I provide a professional, competitive service tailored to your needs.

"I deliver quality **photography** by bringing out the power behind the picture with **data**."

John M^{ESS}

SERVICES

SITE 3D SCANS

Quickly create accurate, high-resolution digital replicas with 3D models.

ORTHOMOSAIC 2D

Photo360 can create real-time 2D maps with ultra-high detail. Obtain accurate measurements such as length, area and volume. Regular progress comparisons.

ROOF INSPECTIONS & MEASUREMENT

Collect high resolution roof imagery and generate comprehensive roof reports 3x faster than traditional methods.

COMMERCIAL PHOTOGRAPHY & VIDEO

Photo360 can provide high quality photos & video for marketing & for your clients.

HEALTH & SAFETY - SPECIALIST

Reviews & advice to help drive cultural change & true engagement utilising principles of behavioural safety.
